WARNING OF HEAVY RAINFALL

Country	United Republic of Tanzania
Bulletin No.	20121005-01
Time of issue	04:00pm
Threat Level: 1: Information, 2:Advisory, 3:Warning:	**Warning**
Valid from: Date	**Monday, 08th October, 2012**
Valid to: Date	**Thursday, 11th October, 2012**
Phenomena	**Heavy Rainfall and strong wind**
Area	**Northern Coast (Dar es Salaam, Morogoro, and Pwani), isles of Unguja and Pemba and Southern areas**
General remarks:	There is a low pressure system over south-western Indian Ocean and strong alignment of the climate patterns for the start of short rainfall season over Bi-modal areas. Growing confidence for the first significant heavy rainfall event over mentioned area is expected at the beginning of the next week.
Specific remarks:	There is likelihood of rainfall reaching between 50mm to 100mm in short time or in 24 hours. Moreover, strong winds are likely to occur over the Indian Ocean.

Dr. Agnes L. Kijazi
DIRECTOR GENERAL
